

Rockwell Parts

Rockwell Part - AxleTech International is a leading provider in the world of specialty vehicle drive-train systems and components along with off highway vehicles. The company prides itself on being its customers' preferred supplier. AxleTech strives to meet and exceed their clients' expectations for technology, delivery, quality and service. They believe in working within an environment which supports the utmost integrity with empowered teamwork, together with a relentless pursuit of results.

AxleTech International is a General Dynamics business. They believe strongly in actively using principals of ecological safety and stewardship in how they do business. The business has put various programs in place so as to articulate these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whatever comments or questions, because they are glad to share and promote this policy with a greater knowledge of their efforts. They are extremely committed to improving and preserving the natural environment. AxleTech has an EHS program that not only protects the natural environment but which likewise actively protects their neighbors and workers too.

AxleTech specializes in the designing and manufacture of planetary axles used for both commercial and military applications, that can include anything from airport ground support to construction equipment. They take great pride in being an innovative drive-train solutions provider too. AxleTech specially designs axles to meet particular application demands. They have over 1000 different axle specs within their existing offering. With over one hundred years of history and skill, AxleTech proudly supplies the most complete solution for whichever of your axle needs. The business is well known in many commercial and military applications. They offer complete axle assemblies used for aftermarket replacement needs, along with servicing axle requirements for OE production. Their high mobility ISAS have extra details which can be seen in the "ISAS" product selection.
